Re: Ground Water Permit No. G3-29748

Dear Ms. Cox-Riley:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, the economic downturn and untimely death of your husband has resulted in an inability to put the water to full beneficial use in the time allotted. It appears you have made substantial goals in completing your project. Your request is for ten years but has been reduced to reasonable and short period of time. We will grant you an additional five years to complete your project.

The new deadline to submit your *Proof of Appropriation of Water* is July 1, 2015.

An approved measuring device shall be installed and maintained for each of the sources authorized by this water right in accordance with the rule "Requirements for Measuring and Reporting Water Use", WAC 173-173. <http://www.ecy.wa.gov/programs/wr/measuring/measuringhome.html>

Water use data shall be recorded annually and maintained by the property owner for a minimum of five years, and shall be promptly submitted to the Department of Ecology upon request.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.
